

**SEVENTH BANFF CONFERENCE ON ALLOGRAFT PATHOLOGY
A NATIONAL KIDNEY FOUNDATION
CYBERNEPHROLOGY EVENT
JUNE 14-18, 2003
UNIVERSITY OF ABERDEEN
ABERDEEN, SCOTLAND**

EVALUATION FORM

Please complete the evaluation form by responding to questions concerning the overall program and individual presentations you have attended. Completed evaluation forms can be deposited at the designated receptacles in the Conference Area. Your responses are valuable in planning future educational sessions and programs. Thank you in advance for your feedback.

YOUR PRESENT STATUS:

- Nephrologist Pathologist Transplant Surgeon Hepatologist
- Cardiologist Pulmonologist Fellow (please specify) _____
- Other (please specify) _____

1. How many years have you been in research/practice?
- Less than 2 years 2-5 years 6-10 years 11-20 years Over 20 years
2. During the course of a year, what percentage of your time is spent on transplant issues?
- Over 50% 40-50% 30-40% 20-30% Under 20%
3. Did this program meet your objectives for attendance? Yes No
4. Was the information presented pertinent to your research/practice?
- Extremely Sufficiently Somewhat Not Very

PLEASE COMMENT _____

5. Do you plan any changes in your research/practice as a result of this program? Yes No

PLEASE ELABORATE _____

6. What is your overall evaluation of the program?

- Excellent Very Good Good Fair Poor

COMMENTS _____

7. Were the meeting facilities satisfactory? Yes No

8. How did you hear about the Seventh Banff Conference on Allograft Pathology?

E-mail Website (please specify) _____

Associate/Colleague Direct Mailing Meeting Brochure

Other (please specify) _____

9. Please add your comments and suggestions for future programs.

11. How would you rate the presentation of the subject matters listed below?

SUNDAY, 15 JUNE - 8:40 a.m. to 12:20 p.m.

Presentation/Speaker	Excellent	Very Good	Good	Fair	Poor
Real-time Gene Analysis/Microarrays in Transplantation Chair: Phil Halloran, MD					
Real-time PCR as a clinical tool in transplantation Allan Kirk	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Impact of recipient age on graft gene expression Michael Ishitani	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Cytokine expression in donor livers Johann Pratschke	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Gene expression changes in ischemia, reperfusion and post ischemic inflammation Stefan Schneeberger	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Gene expression profiles of graft response to transplant injury David Perkins	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Microarray profiling and forms of acute allograft rejection Minnie Sarwal	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Immune response gene expression in cardiac transplantation. Maria Gerbase de Lima	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Patterns of gene expression as markers for acute for acute and chronic allograft dysfunction Jeffrey Lande	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The gene expression profiles in chronic allograft dysfunction Tung-Yu Tsui	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Expression profiling of chronic allograft vasculopathy E. Rene Rodriguez	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Comments

12. How would you rate the presentation of the subject matters listed below?

SUNDAY, 15 JUNE - 1:30 p.m. - 4:55 p.m.

Presentation/Speaker	Excellent	Very Good	Good	Fair	Poor
Antibody-mediated rejection/C4d Chair: Robert Colvin					
Summary: Data to date regarding C4d staining and anti-donor antibody: sensitivity and specificity Robert Colvin	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Humoral alloreactivity, C4d staining and the renal allograft Helmut Feucht	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Donor-specific antibody detection and relevance of low levers of Class II-specific antibodies Andrea A. Zachary	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
HLA antibody and donor reactivity and risk for rejection and graft loss Ronald Kerman	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
HLA antibody and chronic rejection Paul Terasaki	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Anti-HLA antibody importance of memory vs. de novo responses in Renal Transplants Peter Nickerson	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Differing antibody patterns between ABO- and HLA-incompatible grafts Millie Samaniego	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Rejection and anti-angiotensin II antibodies Duska Dragun	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Biological effects of C4d and C3d William M. Baldwin	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Comments

14. How would you rate the presentation of the subject matters listed below?

MONDAY, 16 JUNE - 8:00 a.m. to 11:00 a.m. (Parallel session)

Presentation/Speaker	Excellent	Very Good	Good	Fair	Poor
Liver:					
Chair: Anthony "Jake" Demetris					
Lymphocyte apoptosis after human liver transplantation – implications for the liver effect. Andrew Clouston	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Dendritic Cells: An overview of current understanding of their role in antigen presentation and immune regulation Angus W. Thomson	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Choice of topic related to liver transplant immunopathology David Adams	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Effector mechanisms of liver injury in rejection and recurrent primary biliary cirrhosis John M. Vierling	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Mechanisms of hepatic tolerogenicity Alex Bishop	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Comments

15. How would you rate the presentation of the subject matters listed below?

MONDAY, 16 JUNE - 1:00 p.m. to 4:00 p.m.

Presentation/Speaker	Excellent	Very Good	Good	Fair	Poor
Liver					
Chair: Anthony “Jake” Demetris					
When is treatment of acute rejection needed, pathology perspective Chris Bellamy	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Immunopathology of weaning immunosuppression after liver transplantation: How robust is the “tolerance”? A.J. Demetris	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Autoimmune hepatitis, clinical/immunologic perspective and how might it be different from rejection Albert Czaja	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Consideration in the clinical diagnosis of autoimmune disease in liver allografts James Neuberger	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Histopathologic differential diagnosis of late liver allograft dysfunction Stefan G. Hubscher	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

17. How would you rate the presentation of the subject matters listed below?

TUESDAY, 17 JUNE - 9:40 a.m. to 1:00 p.m. (Parallel session)

Presentation/Speaker	Excellent	Very Good	Good	Fair	Poor
Tubulitis Chair: Phil Halloran					
Correlations of tubulitis in the renal allograft Phil Halloran	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Serial biopsy analysis in rejecting and non-rejection rhesus monkeys with renal allografts Margreet Jonker	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Effector cells and tubulitis in the renal allograft Gregg Hadley	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Complement factors and tubulitis Steven Sacks	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
T cells modulation of ischemia-reperfusion injury Hamid Rabb	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Why blockade of the costimulatory pathway (B7-1/CD28) is protective in ischemia? March DeBroe	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Judging Transplant Function - a History (Lunch Talk) David Hamilton	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Comments

TUESDAY, 17 JUNE - 1:00 p.m. - 3:20 p.m. (Parallel session)

Presentation/Speaker	Excellent	Very Good	Good	Fair	Poor
Tolerance/Accommodation/Immunodepletion Chair: Lorraine Racusen					
Mechanisms and strategies for tolerance induction Robert Lechler	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Immune Signalling and Tolerance Alan Kirk	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The tolerance network Eleanor Ramos	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The pathology of accommodation Robert Colvin	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Immunodepletion protocols and kidney allografting Roz Mannon	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Chimerism of endothelial and parenchymal cells Paul Grimm	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

20. How would you rate the presentation of the subject matters listed below?

TUESDAY, 17 JUNE - 1:00 p.m. - 3:00 p.m. (Parallel session)

Presentation/Speaker	Excellent	Very Good	Good	Fair	Poor
The Pathology of Cardiac Allograft Vasculopathy: Mechanisms and Potential for Early Diagnosis and Therapy Chair: E. Rene Rodriguez					
Vitronectin in coronary vasculopathy Norman B. Ratliff	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Delayed type hypersensitivity in cardiac transplant vasculopathy Jordan S. Pober	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Perivascular monocyte/macrophage infiltrates in cardiac allograft vasculopathy Michael C. Fishbein	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Microchimerism in the allograft coronary arteries Eloisa Arbustini	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The role of Nitric oxide synthases in cardiac allograft vasculopathy Claus B. Andersen	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
The role of complement and immunoglobulins in allograft vasculopathy William M. Baldwin	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Minor antigens are of major importance in chronic graft vasculopathy Marlene Rose	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
